Unit 3 Talking about Work

Tapescript—p. 16 (Dave asks Sara)

Sara—what do you do?

I'm a sales associate.

A sales associate. Where do you work?

At the Gap, Incorporated.

Oh, the Gap. Which one?

Uh...it's in the Columbia Mall in Bloomsberg, Pennsylvania. It's on the East Coast.

Oh, you're from Pennsylvania?

Pennsylvania—yeah.

How long does it take you to get to work?

Takes about twenty minutes by car.

Umm...pretty close. How long have you worked there?

I've been working there about two years. Uh...I started when the store originally opened. Umm...it's at a pretty small mall, but we finally got a Gap and opened it, and have been running about two and a half years.

Do you work part-time or full-time?

I work full-time, about thirty-five hours per week.

Do you ever work overtime?

If needed. Sometimes during the holidays they need more help.

What time do you start work?

Uh...about eight-thirty. And then the store opens around ten, but we need to get it prepared for the customers.

What time do you finish work?

Usually around four-thirty...uh...p.m. in the afternoon.

What do you do at work?

Umm...when we get there at around eight-thirty we need to get the store prepared, so we go through...umm...fold all the clothes, make sure everything's in order, small to large, uh...open the cash registers, count the money, and then throughout the day you just help customers when they come in and make sure the store's kept neat and clean.

Uh-huh. What do you like best about your job?

Interacting with the customers when they come in and talking to them. Uh...you learn a lot about people when you really [don't] think you know. If they'[re going to] talk for a long time, you can really have a lot of conversations, and it's fun.

Uh-huh. What do you like the least?

Folding the clothes. And when shipments come it's real annoying (??) because that's...the shipments will come in huge boxes of clothes and you need to open the box and then inside everything is individually wrapped in a bag. So you need to undo the bags, and then you have to size them, and put them out on the...the floor, so it takes a long time.

So you don't like folding clothes?

No.

How much money do you make?

Five fifty an hour.

That's not so high, is it?

No, but minimum wage in Pennsylvania is much lower than here.

Uh...

It's only five fifteen so...

Oh, really?

...it's more than minimum wage.

So five dollars fifty cents an hour?

Yes.

But if you work overtime you get extra?

Yes. Yes.

How much vacation do you take a year?

Two weeks you get, built into your schedule.

Unit 5 Travel English Part I: Traveling to Korea

Tapescript—p. 23 (Dave asks Ed)

Ed—why do you like Korea?

Oh, I think the simple answer is that I lived there for a long time and I know many people there.

How long did you live there?

Well—back and forth, back and forth I came. Umm...altogether maybe six years. But...uh...three different times for some length of time. And then I've been there many times for...

How...

...a short period of time.

How many times have you been there do you think, if you counted all the times?

Oh...

Uh...roughly.

Maybe ten.

Ten times?

Yeah.

That's all? Including all your small trips?

Yeah—I think so. Maybe...

Ten times.

...ten times.

What do you usually do when you go there?

Usually I have some kind of...uh...work related thing to do. I have a paper to give or I have some kind of work to do for the school. And then I often meet friends...umm...and we like to

go outside the cities...uh...maybe hiking in the mountains...uh...or we go to the beaches. Things like that.

Uh-huh. What's one of your favorite Korean foods?

Uh...there's a thing called 'kkenip' that I like the most. 'Kkenip'.

Kk...kkenip?

Umm...kkenip.

I've never heard of it.

It...it is...

How...how do you...how do you spell that?

It's K-K-E-N-I-P.

Kkenip?

Kkenip—yeah. It means...uh...uh...sesame leaf.

Sesame leaf.

It's uh...uh...the leaf of the sesame plant that has been...uh...preserved in soy sauce. It's got a very unique taste. It's very very good.

Is it a...side dish for...

Yeah. Yeah.

...drinking or something?

No, you can eat it...you...you usually take it with your chopsticks and you...umm...put it over a bit of rice, and then close it in...umm...underneath and...umm...put that whole thing into your mouth.

So...se...sesame leaf?

Yeah.

And it's...it's...sorry...it's soaked in what?

In...in a kind of shoy...shoyu...uh...sauce.

Soy sauce. It's...it's not spicy?

It can be if you put some hot pepper in it, but usually it's not particularly hot. No.

Which place in Korea would you say is your favorite?

Oh, that's a hard question because it depends on what you're looking for. Umm...I very much like to go hiking in the mountains, and I suppose my favorite mountainous area is...uh...Soraksan, which is, you know, the most popular with most Koreans, too. But... umm...uh...so just for mountain reasons Soraksan is the best. Uh...if you want to go visit temples and shrines and things like that either Songnisan...uh...uh...is...is good or down to Kyongju. Uh...Kyongju has...uh...a very important temple there, Pulguksa, and Sokkuram—those two peop ...places are very important historically and I like to visit them.

How many times have you been hiking in Soraksan? How do you say...'Soraksan'?

Sorak...Soraksan.

Soraksan.

Yeah.

'San' means mountain, right?

Right. Umm...

Many times?

...uh...let's see...one, two, three, four—maybe five times. Yeah.

What's a problem you've had before?

Uh...one time back about twenty years ago when I was teaching at a university in Seoul... uh...the students were demonstrating. And the police came onto the campus and...umm... when the police moved I was outside and students and me included...uh...we headed for the library...uh...thinking we would be safe in the library, but the police had...uh...put tear gas in the library, and so when I went up the stairs toward the library...tear gas is totally...umm... colorless...

It's terrible. Terrible.

...and you can't see it...you...and all you can do is all of the sudden feel this stuff in your eyes. And it was the...the worst experience I had ever had...uh...like that.

How long were you...affected or crying?

Not...not too long because it...I...I didn't get into the building. Uh...everybody went up to the building and then they immediately left the building because it was full of tear gas.

Have you ever visited Lotte World in Seoul?

No, I haven't.

No?

No.

Scott—have you stolen an umbrella?

Uh...no, I've never stolen an umbrella.

Stolen anything else?

Uh...yes, as a matter of fact, I used to steal baseball cards.

Uh...me, too. Have you...have you...ugh!...have you wanted to run away from home?

Uh...when I was little I wanted to run away from home. I used to build the little napsack on the twig and try to take off and hide in my backyard.

Why would you usually do that?

Well, because my dad threatened to take away my toys.

Yeah, I [was] only did it when I was mad at my parents, too. Have you held a snake?

Have you danced on the stage at a nightclub?

That I have done before. I've...uh...yes, I've danced plenty of times on the stage.

I can only imagine! Have you made a prank phone call?

Yes, I like the old classic...uh... "Is your refrigerator running?" prank. That's my favorite.

Those are fun. Have you danced alone in front of a mirror?

In front of a mirror?

Yeah.

Uh...yes, when Cindi Lauper's 'Girls Just Wanna Have Fun' is on I like to dance.

I'd like a picture of that! Have you punched anyone?

Uh..., as a matter of fact, I've never punched anyone in the face my entire life.

Are you sure?

I swear.

I know. Me, [either]. I'm not a very big guy. I don't think it's a good idea for me to be doing that. Have you tried dog food?

Not actual dog food, but dog biscuits. Yes, I have tried before. They were actually pretty good.

Really?

Yes, they're...they're high in protein.

Was this a bet, or were you just bored one day?

► Unit 7 Talking about the Past (Part I)

Tapescript—p. 37 (Sara)

I was sitting with my family and some family friends on the day after Christmas of 2001. Umm...it was about two-thirty in the morning. We were up very late but we were gathering with old friends and talking. And the phone rang. And there was a cop on the phone. My mother answered the phone and they asked if my brother, Kenneth, was Kenneth Kosteva. She answered, "Yes, that's my son." And asked if he drove a black Dodge Stealth. And she said, "Yes." They said, "We just found it flipped over in a ditch and he is nowhere to be found."

So frantically we all...umm...start talking about what to do. My father and one of the family friends got in the car and immediately went to the road where they said they found the car. I stayed at home with my mother because I didn't want her to stay there alone. And I was absolutely hysterical because I thought he was obviously no longer alive.

Umm...we then met my fa...uh...father at the scene of the accident where there were ambulances and cop ca...well, no there was cop cars all over...the ambulance...umm... actually I think there were two ambulances also. Umm... (So that was your brother's truck?) It was a car, a Dodge Stealth. Like a real speedy racer type car. Yes, it was his car that they found and he was gone. No—he was nowhere to be found.

So we get to the scene and start looking all over, but it was pitch black outside. So then we went back home to get a spotlight. And the police were involved, the firemen—it was going over the CB so everyone knew about it. The police put out a search team with... uh... [greyhounds]. They were chasing his blood, but since it was on the concrete they couldn't trace it back...umm...very far, other than about fifteen yards.

So at about four-thirty we get a phone call from my little cousin, who lives next door to me. And he was waiting at my house for phone calls as we were looking for my brother. And he said, "Your brother, Ken, just walked in the back door." Here he had walk[en] home from the scene of the accident four miles. We live in the mountains and it was probably about eleven degrees outside.

He had a swollen hand. His face was all cut up, all bloody. His shirt and pants were both ripped. His leather coat was ripped. His car was absolutely demolished...umm...cell phone thrown across the street—that's why he couldn't call for help. He was totally out of it, and the only way he walked home was because of the adrenaline rush from the accident.

We then called the police; they stopped the...umm...search, and immediately drove him to the hospital which is about twenty minutes away. And he was totally coherent, and it was the weirdest thing because [him] and I were singing songs that were on the radio on the way to the hospital.

So we get to the hospital. They immediately took him in. Uh...they...the police were there waiting. Uh...they did breathalyzer checks because it was so late in the morning and he had been at the bar earlier in the evening. Luckily he had only had a drink so it didn't come up on the...uh...the scales. They then fixed him all up. We waited in the emergency room 'til about seven-thirty a.m. for him.

The only thing that came out of it was he had a couple of broken ribs which healed in about two months. He had [scrapes] on his hand that were very deep but stitches took care of those, and those healed in about two weeks. And his eyes...uh...the one pupil is to this day, which is about six months later, it's still dilated. So he's having problems with that but...umm...he's seeing an ophthalmologist...uh...about every couple of months, and so they're trying to take care of it.

His car was totaled...uh...he...di...managed to get his subwoofers out of the back. They weren't broken at all. And the weirdest thing was this—the front seat of his car, the driver's seat, had not one scratch on the leather or anything. But everywhere else in the car was absolutely smashed in. So it was extremely lucky. And the airbag is what gave him the cuts and scrapes... (Oh, he had an airbag. Oh.) ...on his face. So that really saved his life.

And...umm...definitely a learning experience for him. And it was kind of interesting the way it worked out with his car. He managed to get a lot of money back from the insurance company and bought a...umm...used Lexus, so he didn't really go down much in cars. And everything worked out fine for him. He borrowed my car for about three weeks and took it back to college with him and stuff.

Why were you peeping in your neighbor's window at 4 a.m. last night?

I wasn't peeping. I just...I saw a light and I wondered what it was. I wanted to check that no one was breaking in, so I went across to have a look. But it turns out it was just their son. And he was just getting something to eat.

Oh. Okay.

Yeah.

Sure. Why were you shouting at the pilot while you were flying to Europe?

I'm really afraid of flying and when the plane started turning I thought we were going to crash...

Wow!

...so I wanted to ask the pilot if everything was okay.

Wow—you looked really crazy!

I was scared.

Okay. Why were you walking down the street carrying a snake and a chair?

Because I'm in a play and the play needed the props, and the props were the snake and the chair.

Oh—I see.

Yeah.

Why were you sitting on the side of the road crying?

Because my boyfriend just broke up with me and I really liked him.

Oh, that's too bad. I'm sorry.

I'm sorry, too.

Why were you wearing a boyscout uniform at work?

Because it's Halloween and everyone dresses up on Halloween.

Oh. You looked very good in it. Very nice.

Thank you.

Why were you lying on top of a table at MOS Burgers?

Because I felt really sick after eating my meal and needed to lay down.

Oh—okay. Why were you running naked through your neighborhood yesterday?

Because I made a bet with one of my friends, and then I lost, so I had to run naked through my neighborhood.

Oh, that's too bad. Why were you withdrawing all the money from your friend's bank account?

Because she asked me to. She needs the money in order to buy a ticket to Europe.

Oh, I thought you might have been stealing her money.

No!

Oh, okay. Good. Why were you having dinner with your boss' husband last Friday night?

Because we were planning a surprise party for my boss.

Umm...I would recommend that maybe you try exercising instead of dieting a little bit more.

Okay. (2) I've tried to quit smoking, but I can't. What can I do?

How long have you smoked for?

I've been smoking for five years.

Five years. Umm...there's some companies that make...umm...a patch or some gum. Maybe you should try that.

Sounds like a good idea. Maybe I will. (3) My wife snores at night. What should I do?

Your wife snores at night. Uh-oh. Umm...maybe you should buy earplugs like the kind people wear on airplanes.

Umm...

Have you tried that?

I haven't tried that. Maybe I will. (4) I can't get rid of the...I can't get rid of these hiccups. What should I do?

Umm...I hear that hanging upside down and drinking a glass of water makes them go away.

I've tr...I've already tried that and it didn't work.

Uh-oh. I don't know.

(5) I want to live to be 100 years old. Can you give me some advice?

When I was little my grandpa always told me I should eat...uh...one bowl of oatmeal everyday if I want to live to be old.

Okay. Maybe I'll try that. (6) Sometimes I can't sleep at night.

Umm...how long has this gone on for?

This has gone on for at least three years.

Sounds like insomnia. Maybe you should see a doctor.

A doctor? Okay—I'll do that. (7) I want a girlfriend, but I can't meet any women. Can you help me?

Are you very shy?

Yeah, I'm very shy.

Umm...maybe you should go out to more clubs and parties and try to introduce yourself more.

Maybe. I don't like clubs, though. There's too many...too much loud music; I don't like that but...okay. (8) What present should I get my wife for her anniversary?

Oh—what anniversary is it?

It's our twenty-fifth anniversary.

That's a big one. Maybe you should buy her a diamond ring.

I don't have enough money for a diamond ring.

Umm...well, it's always nice to take her to dinner.

Okay—I'll do that.

Tapescript—p. 59, Conversation 2 (Matt asks Hayley)

(1) I want to lose weight, but I hate dieting.

Why do you want to lose weight?

Because I'm...I'm very fat. And I...I can't run too fast and people make fun of me.

Well, I think that you should start with exercising.

Exercise?

Yeah, that's right. Because when you start exercising, you'll start to lose weight and you'll start to feel fit. I don't think it's important to lose weight just to be thin. I think it's important so that you feel healthy, and so that you feel fit. So maybe you could watch what you eat, too. Like don't eat fatty foods; don't eat McDonald's; eat more fruit, more vegetables.

Okay. (2) I've tried to quit smoking, but I can't. What can I do?

I don't know...umm...perhaps you can try at least cutting down. Just smoke less cigarettes first of all. And if you smoke less, and then smoke less, and then smoke less, hopefully by the end of it you can start quitting, right?

Okay.

Maybe try...maybe try going to a doctor and asking what his ad...his advice would be.

Sounds good. (3) My wife snores at night. What should I do?

Have you tried using earplugs? Maybe that will help you so you won't hear her snoring.

That's very good advice. I'll try that. (4) I can't get rid of these hiccups. What should I do?

I think you should drink some water because sometimes that helps when I have hiccups.

Drinking water sounds good. I'll try that. (5) I want to live to be 100 years old. Can you give me some advice?

100 years old? I think you should keep fit and healthy, and you can do that by eating good food and exercising.

Okay. (6) Sometimes I can't sleep at night.

Why can't you sleep at night?

I don't know why I can't sleep at night. I just go to...I go in my bed and I just stay awake 'til like five in the morning.

Okay. I'll...I'll look into it. (7) I want a girlfriend, but I can't meet any women. Can you help me?
